## Who we are

By reaching out to the community in whatever we can, in spirit and in action, we believe that gratitude can be more than just a word.

At the Let's Thank Foundation, we keenly pursue causes that allow us to give back to Society and Nature what we have been privileged enough to receive. We believe that it is necessary to extend our gratitude, which is the only way one can find fulfillment and be content. To do our bit, we are engaged in lending our contribution towards the differently-abled and caring for Nature.

IN FUTURE

# Let's Thank humanity

## Self employment for differently-abled people

There is no greater gratification for us than witnessing the surge of empowerment that they are already equipped with.

It's time, that we as a privileged society, stopped looking at the differently-abled, differently. When they are constantly trying to overcome their challenges, all that they need is our encouragement and support for their abilities to be honed. Through our specially designed programmes, we try to foster self-employment opportunities for them. By doing so, we are not enabling them because they are already able; we are only trying to make them more empowered so they can be self-employed and self-reliant.

### Procedure of Execution

**500+**  
PROJECTS EXECUTED

The sense of gratitude towards the nature makes us to cultivate the awareness for the need of tree plantation.

We passionately work for the environment through a series of nature-related activities. Our focus is on increasing the urban green cover and planting trees in industrial areas. By working at the source, we endeavour to ensure that afforestation helps to bring back our lost natural resources. Planting a tree is almost element'ree' because it has an impact on all the five elements. Its role in giving us Air, Water, Fire, Wind and Space is indispensable, which is why it is essential that we plant trees.

### Types of Projects

**School Zones**  
Planting Areas  
(Private & Govt. Schools)

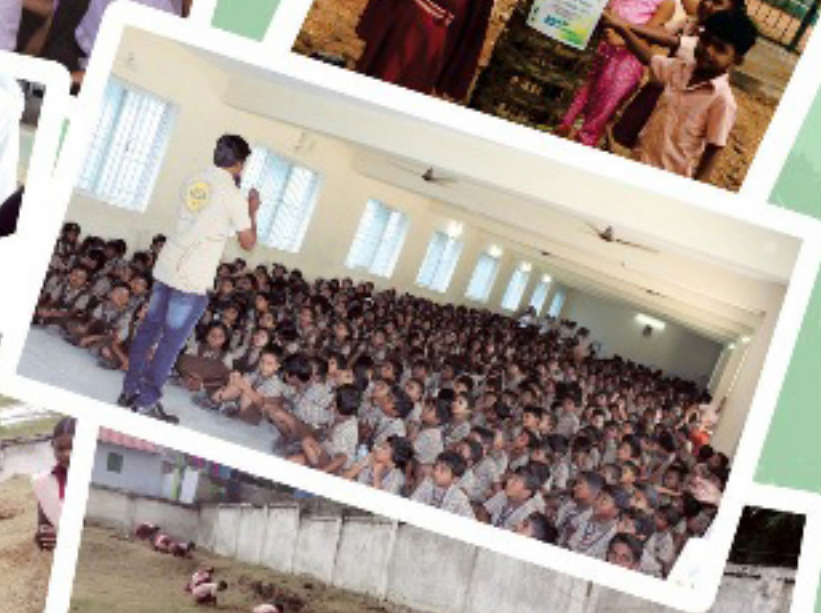

**NGOs**  
Planting Areas  
(Ponds & River Beds)

**Industrial Zones**  
Planting Areas  
(Industrial Estates & OSR Lands)

**Individuals / Volunteers**  
Planting Areas  
(Streets, Colonies & Parks)

**25,000**  
SAPLINGS PLANTED &  
MAINTAINED

# Vision 2027

Implementation of  
10,000 projects for  
the differently-abled

Plantation of  
1 Crore Trees

Management of  
500 Metric Tonnes  
of Solid Waste
